

Patient Portal

What is a Patient Portal? It is an online tool that provides anywhere, anytime access to your or your child's health records, and enables you to take a proactive role in managing your care.

WHAT CAN I DO WITH IT?

Schedule well-child visits and annual check-ups (call office for sick visits)
Communicate privately with our office via secure messaging
Update health information (allergies, medications, etc.)
Request Rx refills
Request or change appointments via message
Print immunization records for school/daycare
Receive automatic reminders regarding your upcoming appointments
... and more

And it's available online 24 hours a day, 7 days a week via any computer, mobile device or smart phone!

WHAT'S IN IT FOR YOU?

Time-savings: eliminates phone calls and waiting for messages on routine matters
Convenience: anywhere anytime access lets you communicate on your time
Privacy: secure messaging ensures privacy between you and your physician
Enhanced service: patients have more options and choices in how they communicate with their doctor

HOW CAN PATIENTS GET STARTED?

Simply give us a valid email address at your next visit or just call us. Once your email address is entered into our EMR system it will automatically generate an email invitation. That's it! So get started today!
